The crude oil is thus thrown onto the corn millers in large quantities, and until this discovery they had no method for successfully treating, hence it was valueless because of its rancid nature.

Mrs. Emma C. Sickles, now attending the Domestic Science laboratory in Washington city, discovered a way to treat it with the soil off her farm in this county. After several months' time she applied for a patent, which was granted a few days ago, since which she has closed contracts with several down-East corn milling concerns for the use of the soil in carlots to be used in the treatment of the crude oil. The patentee says the soil can be used quite as successfully in the beet sugar and other food products. She will be here in a few days to personally oversee the shipping of the soil. This is the item that headed the personal column of the Arizona papers recently.

Back of this is a story that has set all Arizona agog-the tale of a woman masuerading in cowboy attire, lassoing cattle, taking part in shooting scrapes, leading the wild, free, adventurous life of the Ari-

applicant for work gave, won his spurs in the annual rodeo for which the cowboys the annual rodeo for which the cowboys were then preparing.

By day Jack sat his horse rounding up the cattle and at hight slept on the ground. He was quiet and distant toward the other cowboys, but for the most part they liked him. Before the first month had passed he had an opportunity to show his mettle.

A number of cowboys were spending the night in a typical Arizona town-one saloon per every lifteen inhabitants. Jack Hall, in search of Captain Diek, dropped into one of the saloons. A cowboy, revolver in hand, was acting as master of ceremonies, while in the middle of the floor the barkeeper, half dead from fattgue, was doing a dance, to the amusement of the rest of the cowboys.

a dance, to the amusement of the rest of the cowboys.

When the barkeeper attempted to stop swirling his feet the cowboy shouted for more dancing, and the master of cere-monies encouraged the barkeeper by pop-ping his pistol buliets dangerously near his feet.

Jack Hall Jack Hall watched the scene in silence until he saw that the barkeeper had reached the limit of his endurance. Then he deftly wrenched the pistol from the cowboy's hand and, turning it on him, said:

What will the militia do?" demanded

their horses and rode through the town wildly shooting at the clouds.

A posse of citizens was formed, and a mile or two out of town they overtook the hilarious cowboys, killing one of them and wounding several.

The pursuit and killing aroused indignation throughout the territory. The cowboys had done no real or serious damage, according to Arizona ethics, and according they should have been allowed to go

according to Arizona ethics, and accordingly they should have been allowed to go their way unmolested. Besides, they had wasted all their ammunition and they had not a fair fighting chance. Such was the general verdict of the affair.

The day after the killing Captain Dick rode into the same town, galloped straight to the mayor's office, and dismounted. He left it with a folded piece of paper tucked in his belt. It bore the mayor's signature promising to raise a certain amount of money for the families of the dead cowboys.

## Question of Money and Apologies. Two days later came a letter from Cap-

tain Dick to the town officials. It demanded an apology to the cowboys signed by the mayor and all the dignitaries of the town, with the money, or there would be some carefully-aimed shooting from the cowboys. And it was promised that the townspeople would be at the wrong end of the guns this time.

The money and apology, carefully worded, The money and apology, carefully worded, besprinkled with seals and duly signed by the Spanish cannon from the Mare Island

cowboys. And it was promised that the townspeople would be at the wrong end of the guns this time.

The money and apology, carefully worded, besprinkled with seals and duly signed by leading citizens and officials, was hastily dispatched to Captain Dick.

The cowboys were satisfied with the apology, and so the matter ended.

When this same Captain Dick was stricken with typhoid fever it was Jack who nursed him through the dangerous sickness, and after that, "Boy," which was the captain's name for the youth, usually rode by the captain's side.

A year passed before the real identity of "Boy" or "Nurse Jack" was discovered. It all came through the teacher in the country school asking Jack to ride into town to buy her some ribbon. It was late in the afternoon when Jack reached Williams, the nearest town. He was in a hurry, and the startled customers in the dry goods store hastily made way for a sunbrowned cowboy on a horse, who rode straight up to the goods-covered counter and demanded three yards of pink ribbon. It is perfectly proper for a cowboy to ride his horse into an Arizona saloon, but when it comes to a dry goods store it is a questionable procedure.

While the clerk was hastily measuring off the ribbon a lady customer came to While the clerk was hastily measuring

off the ribbon a lady customer came too close to the horse's hoofs and was knocked inconscious. The constable and several deputies proved too many for Jack and he was straightwa, marched to jall. Captain Dick came to town as soon as he heard of the affair He called on "Boy" at the jail and to hi surprise was shown the woman's ward.
"Jack" had been forced to reveal her sex or be put in the men's quarters.

During the three days before the trial

Captain Dick became accustomed to "Boy" in her new guise. She told him her story how her father had been hanged; how her mother and little sisters had taken refug with relatives in Portland, and she hersel had changed her name from Helen Jack son to Jack Hall and remained in Arizona to live the life of a cowboy.

On the day of the trial the injured woman, having recovered from her blow, refused to prosecute. However, the judge was called upon to use his official powers in the crowded courtroom Captain Dick and "Boy" were made husband and wife. The story was soon known all over the territory.

Not only the cowboys on that particular range, but from far and wide the vaqueros have sent congratulations and gifts. "Nurse Jack's" wedding gifts will always remind her of her year of coyboy liter-riding whips, Mexican saddles and silver spurs, to say nothing of several pairs of spiendid riding boots and a dozen sombreros.

Captain Dick Wells is going to take his wife to Portland to visit her family; then they will return to the stirrup and Arizona, which means home to them.

The cowboys have promised not to call her Mrs. Wells. She wants to be "Nurse

Before starting on a "run" a refreshing wash with Ivory Soap gives new energy. It lathers quickly in any kind of water and does not cost more than common soap. The luxury of being clean is not realized without using Ivory Soap. You need not fear alkali, or other injurious ingredients found in many soaps. Ivory Soap is nothing but pure materials, combined to make a soap that will clean and rinse quickly, thoroughly, satisfactorily.
